Residential guarantee

All floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive residential warranty with every product.

Robust

This flooring is amazingly robust due to its super durable surface. Moving furniture or falling objects are not a problem because of its high pressure and impact resistance.

Real groove

Bevelled edges on all four sides of the plank ensure an authentic floorboard appearance.

Warm underfoot

Due to its flexible design layer, the flooring has comfortable haptics and is warm underfoot.

Soft bevel

Inspired by traditional craftsmanship, the elegant design of the rounded joints provides a timeless charm.

Anti-slip class

Safety is something we put great emphasis on. Classification in anti-slip classes has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

Anti bacterial comfort

A.B.C. Anti Bacterial Comfort inhibits the growth of bacteria on your flooring and provides you with the peace of mind that comes from a healthy home environment. (Tested germs: Staphylococcus aureus).

Anti-slip class

Classification:
R9 and R10 according to DIN 51330,
A: according to DIN 51097

Authentic embossed

The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

Design diversity

Up to 60 different panels on digitally printed design are possible. This lends your flooring an authentic appearance that is virtually free of repetition.

Microscratch protect

The robust surface protects your flooring against microscratches that can be caused by strong mechanical stresses or the claws of house pets.

Soft touch

The flooring has a soft surface and feels very comfortable.

Pet proof

Thanks to the robust surface, which is also undaunted by small mishaps, the flooring is exceptionally well-suited for life with house-pets.

Real wood

This floor is made from real wood. The high-quality brushed oak surface gives every room natural elegance.

Light-resistant

The flooring is light-resistant (rated at 6, the top of the blue wool scale).

Anti-static

The flooring provides complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor.

Silent

Due to an integrated pad, the flooring reduces impact sound, echoes and vibrations. An additional underlay is not required, which saves time and money.
